To Whom It Concerns,

Stop the rape of microsoft.

The government's job is to protect property rights, not violate them.

Either you acknowledge that the owner of property has the right to dispose of it as he chooses (i.e., run his own business as he sees fit), without positively violating the rights of others (which Microsoft has never done), or you are a statist, socialist thug who thinks he has the right to control the lives of others, and force them at the point of a gun to do as you see fit.

Anti-trust law is immoral. End this injustice now, and leave those who create wealth, commerce, and industry free to create and innovate to the best of their ability without having to fear being punished for it.

Sincerely,

Charles Troje
